

WHAT IF HAMAS WAS IN YOUR NEIGHBORHOOD?

Israel withdrew from Gaza in 2005. But instead of cultivating its new land, the terrorist organization Hamas launched thousands of rockets against southern Israel, forcing Israelis to run for bomb shelters on a daily basis.

Now, even after a ceasefire, Hamas is still doing all it can to upgrade its artillery so it can reach Israel's heartland and threaten millions.

Imagine if Hamas terrorists were targeting you and your family.
