

Bad for Britain.

Bad for academic freedom.

Bad for Palestinians.

Bad for peace.

We the undersigned condemn the recent decision of the University and Colleges Union Congress to promote a boycott of Israeli universities as the actions of a small and unrepresentative minority that flies in the face of academic freedom and is bad for Britain. We therefore call on the General Secretary to honour her pledge to ballot all of the UCU's 120,000 members so that the true voice of British academia can be heard.
