

PAPER CLIPS - Educational Version

When the students of Tennessee's Whitwell Middle School began studying the Holocaust as a way to learn about intolerance and diversity, nobody could have predicted the results. In 2001, the Paper Clip Project culminated in a unique memorial that changed the lives of those who created it, as well as touching Holocaust survivors and countless communities. Because Norwegians invented the paper clip and used it as a symbol of solidarity against the Nazis, students started collecting them to help visualize the vast numbers of victims. As word spread, paper clips poured in from around the world, 11 million of which are enshrined in an authentic German railcar standing in the schoolyard.

-Educational Version Features-

- 4 Lesson Plans:
 - 3 are designed for grades 6-8 but can be used at the high school level
