not aware of unsanitary
conditions in the religious
Ramapo area?

[redacted]

Im all ears. Convince me that
a) Hasids are actually
unsanitary and that b) the first
COVID cases in Rockland were
Hasids.

[redacted] work it live in
the community and you'll
understand the Ramapo
population. And let's try to not
be so obtuse, did I say all
Hasidim? Of course not.
Measles, circumcised by
mouth, sexual predators called
rabbis, and so much more
does lead to a pattern of
serious hygiene concerns. So
yes this should not be a
surprise.
