Table Talk: Family Conversations about Current Events

About Table Talk
Families often want to discuss news stories and other timely societal events. It's a great opportunity to engage children in rich conversation, share important values and encourage lifelong interest in the news. These talks can happen on the way to school, during a walk or over a meal. Research shows that dinnertime conversation benefits the health, emotional and academic outcomes for children of all ages. Each Table Talk guide below includes a topic summary, questions to start the conversation and dig deeper, ideas to take action and additional resources.

Here are some tips for discussion:
In the wake of George's Floyd's murder in May 2020 by the police, protests erupted across the United States. The first protest took place in Minneapolis, MN the night
after George Floyd was killed. Within days, protests were taking place in all fifty states and more than 140 cities nationwide. Tens of thousands of people also gathered in countries around the world to support the protests and show solidarity. In a recent poll, 74% of Americans said they support the protests that have taken place since Floyd's killing. The impact of the protests is already evident in several cities where steps are being taken toward a broader set of law enforcement reforms.

Overall, these protests are focusing on Black Lives Matter, racial injustice in the criminal justice system and countering systemic racism in society at large.

Engage your family in a discussion about the purpose, history and impact of protests.

Previous Table Talks

TOOLS AND STRATEGIES

George Floyd, Racism and Law Enforcement (in English and en Español)
Engage your family in a discussion about the killing of George Floyd, how bias and hate escalate and the larger context of systemic racism.
