Women's History Month Resources

Women's History Month is a time to honor ordinary and extraordinary women, explore women's achievements and struggles throughout history, and acknowledge women's contributions to our society. The 2021 theme for Women's History Month is “Valiant Women of the Vote: Refusing to Be Silenced.”

Women's History Month is an excellent time to talk with students about gender stereotypes and bias, hail important women in history, discover more about women's issues and their fight for equity, read literature that celebrates women
and girls, analyze sexism and explore its causes and solutions. As with other similarly themed months, it is important not to isolate exploration of women’s history and culture into one month during the year. Women’s history is U.S. history and should be integrated into the curriculum throughout the school year.

Below is a list of K-12 curriculum and other educational resources to bring Women’s History Month to your classrooms and schools.
