

Holocaust Denial

Holocaust Denial is a type of anti-Semitic propaganda that emerged after World War II and which uses pseudo-history to deny the reality of the systematic mass murder of six million Jews by the Nazis and their allies during World War II. Holocaust deniers generally claim that the Holocaust never happened, or that some much smaller number of Jews did die, but primarily to diseases like typhus. They also claim that legitimate accounts of the Holocaust are merely propaganda or lies generated by Jews for their own benefit.
