WORKPLACE EDUCATION ON-DEMAND MODULE

Antisemitism 101 for the Workplace

With antisemitism rising globally and business establishments identified as the fourth most common place where antisemitic incidents occur (ADL 2021), workplaces must ensure that addressing antisemitism and cultural competency on Jews and Jewish issues is part of their diversity, equity, and inclusion (DEI) strategy. ADL's Antisemitism 101 for the Workplace on-demand education supports professionals at all levels and industries in developing their awareness and understanding of antisemitism at work. Through completing this 45-minute no-cost module, individuals will begin to:

- Learn about diversity of Jewish identity and culture
- Define antisemitism and the myths and stereotypes reinforcing it
