

The Countering Antisemitism Act (CAA)—the most comprehensive antisemitism initiative to be introduced in Congress—will implement the National Strategy to Counter Antisemitism and ensure its policies and infrastructure are made permanent.

As ADL data shows, the U.S. Jewish community is facing the worst crisis of antisemitism that we have seen in a generation. As we reach the conclusion of the National Strategy’s 12-month timeline, we must guarantee the important policies within the plan continue to protect Jewish lives. The Countering Antisemitism Act will ensure these policies endure and create lasting executive structures to prioritize and fight antisemitism, including a domestic National Coordinator and a dedicated Task Force that meets regularly to coordinate efforts to fight antisemitism across federal agencies.

As we face such historic levels of antisemitism, the Countering Antisemitism Act offers a smart, innovative whole-of-government approach to combating this hatred and protecting Jews around the country.

The Countering Antisemitism Act is authored by Senators Jacky Rosen (D-NV) and James Lankford (R-OK) and Reps. Kathy Manning (D-NC) and Chris Smith (R-NJ), Co-Chairs of the House and Senate Bipartisan Task Force for Combating Antisemitism.
